💼 PROFESSIONAL EXPERIENCE

Fullstack Developer, *Mothora*   2022 – Apr 2023
Portgual

I was responsible for maintaining the company's web application using Next.js, Tailwind CSS, Prisma, PostgreSQL, and wagmi / ethers for blockchain integration. I collaborated with the product team to implement new features, which allowed me to apply my skills in front end development with backend tasks to deliver the product as expected.

📁 PROJECTS

Pigeon DAO, *pigeondao.org*
I am a Core Contributor to Pigeon DAO. Responsible for the Frontend, Backend and Solidity contracts, I built two MVP's for the decentralized courier in a short amount of time to showcase to investors.

Portfolio Website, *aydens.net*
Designed to be attractive and fun, here demonstrates all of my projects and contact information.
